

How to Set Favicon on switch?

In this module we will see how to set Favicon on switch,

Go to **Configuration System Setting System Logo**

Below displayed window will appear,

Screenshot: System Logo

On the System Logo window, click on **Change Favicon File** section, a popup window will appear to select the Favicon file,

Select the Favicon from the popup window and click on **CHANGE FAVICON** button.

The new Favicon will get reseted.
